

SNOWBALLONS

FIGHT

01

We prepare the balloons, define the size of the two playing fields and divide the children into two teams.

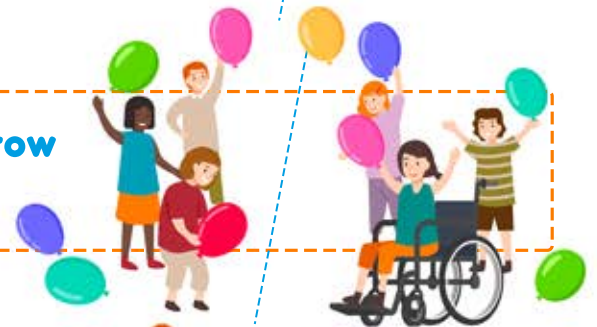

02

We put an equal number of balloons on each field and the children on the field cannot touch them until the music starts.

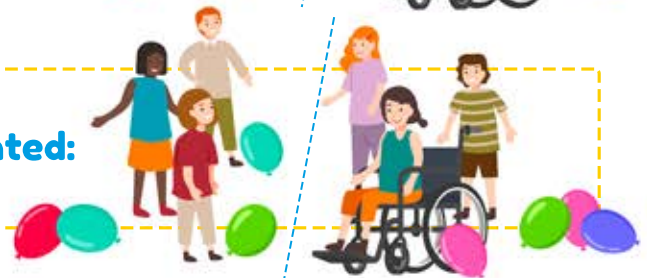

03

When the music starts each team can throw all the balloons into the opposing field.

04

When the music stops, everyone must freeze and the balloons are counted: whoever has less, earns a point.

VARIATION

You can decide different ways to hit each balloon: only with the right/left and or without using the hands, then choosing other parts of the body or use balloons of different colors and hit them with a certain part
