

# THE MISCHIEVOUS REINDEERS

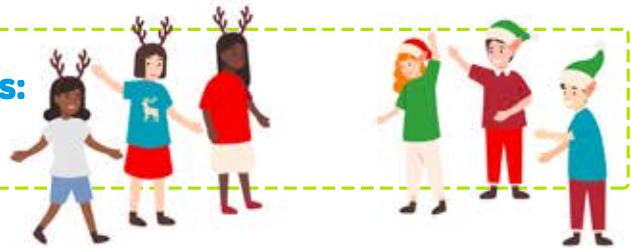

01

Before starting the game, we lay out scattered pieces of rubber mat (or sheets of newspaper or circles) that are the dens and must be the same number as the reindeers.

02

The children are split into two groups: the reindeer and Santa's assistants.

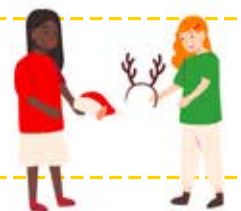

03

Each reindeer is free to move around the space, but look out for Santa's assistants who, on signal, will try to catch them before they reach the dens.

04

Each reindeer has 3 lives and when they are caught, they lose one of them. After a few rounds, the roles are reversed.

## VARIATION

To make the game more difficult, captured reindeer become helpers of helpers or you can decrease the available dens.
